

ROVER OWNERS' CLUB

BYLAW 3

INSURANCE

During the Special General Meeting of the Club on 27th October 2004, when the new Rules of the Club were adopted, it was suggested that the Rule 36 should be modified to make it mandatory for the Club to take out insurance. This suggestion of modification was withdrawn following an undertaking that the matter of insurance would be incorporated in the Bylaws.

This Bylaw has therefore been prepared to address the matter of insurance.

The Committee has resolved to adopt the following policy on insurance. The Club shall take out whatever insurance cover may be considered necessary to safeguard the Members. The following insurance cover shall therefore be taken out:

- Public Liability.

This type of policy shall be maintained until the Committee, following consultation with the members at a general meeting, considers otherwise. The Committee shall review the need for other types of insurance from time to time.
